Don't just put a fax on your desktop – give your workgroups a fax that can do everything else they need.

Productivity

- Fax documents at 33.6 Kbps – as quick as 3 seconds per page.
- Print and copy at a fast 20 ppm.
- Built-in protected memory lets you save fax and device settings even if the power is interrupted.

Enhanced features for less

- Top-notch fax capabilities, including fax forwarding to email and FTP sites and fax forwarding from your PC.
- Scanning features include colour and black and white, scan to email, network scan (scan directly to your PC), convert paper documents into digital files (with ScanSoft PaperPort and OmniPage software).
- Highest-quality output from all functions thanks to outstanding laser technology and optional PCL 6 and PostScript printing.
- Robust, problem-free operation.

Compact and convenient

- Replace your older stand-alone fax with a much more advanced device.
- Save space by consolidating several machines into one – and save the time and budget to maintain all those devices.
- Add an extra tray for larger projects or higher daily volumes.
- Packs a range of high-end functions in a very small footprint.
- Operate the device with ease thanks to the alpha-numeric keypad.
